

Student Work Sample E

Name _____

Training Program Assessment

Group # 1

Discuss the following questions with your group. Each student must complete one of these sheets. Write in complete sentences.

1. How are opposite views alike and different?

They are the same but switched around. I.e.

2. Do these views show all the blocks in the building?

No because when you're looking at it straight on you can't see the blocks behind them.

3. Why do we need a top view?

You need it to make sure that you have the blocks in the right spot, so that it reassures you of your building.

4. Are all views needed?

No, you only need top, front, right or left.

5. How many views are needed to get a good representation of the building?

3, the views you need are top, front, and left or right.
